

Financial Disclosure

I understand Vail Chiropractic's Financial Policy states "Fees are due and payable at the time of service". I understand the Fees as stated below;

Most health insurance only covers acute care or an acute exacerbation of a chronic problem. Once the acute injury has resolved your health insurance will not be billed and you will be responsible for services rendered there after (i.e. Wellness Adjustments). This includes most major medical insurance, Medicare and Medicaid.

Fees vary depending on the type and severity of the complaint

Services are NOT bundled under "one office visit", each service is separate.

Common Services

New Patient History, Consultation and Exam:		\$95 - \$200
